## **NKR Finds First Perfect Match In A Swap**

(Babylon, NY – June 17, 2010) - NKR facilitated its first six antigen match in a kidney swap where one of the recipients received a perfectly matched kidney. The transplant recipient had 65 listed antibodies giving them about a one in a thousand chance of finding a match. This represents the true power of paired exchange with a national pool of donors and recipients. As NKR continues to grow, the math indicates NKR will find more of these miracle matches.

### **About the National Kidney Registry**

The National Kidney Registry ([www.kidneyregistry.org](http://www.kidneyregistry.org)) is a nonprofit organization with the mission to save and improve the lives of people facing kidney failure by increasing the quality, speed and number of living donor transplants.
